DX NEWS

PX0FF Fernando de Noronha –update October 16

Sorry, no more 160m operations from now on. The RX "coax antenna" doesn't help either to get the 160m noise situation under control. With a heavy heart we decided to give up 160m. Sorry for that. As you may notice, also 80m and 60m are affected by the noise. But at least a few stations make it in the log. So we'll continue there as much as possible. Thanks for your understanding.

3D22 and 3D2V Rotuma –update October 16

Due to very bad weather conditions and massive waves, Rebels are still waiting to set sail at Rotuma old harbor. This morning (local) swell height shows about 4.5m with very short period of time. Roller-coaster waves. Let's hope we can set sail soon. LoTW will be send right after we back to Fiji.

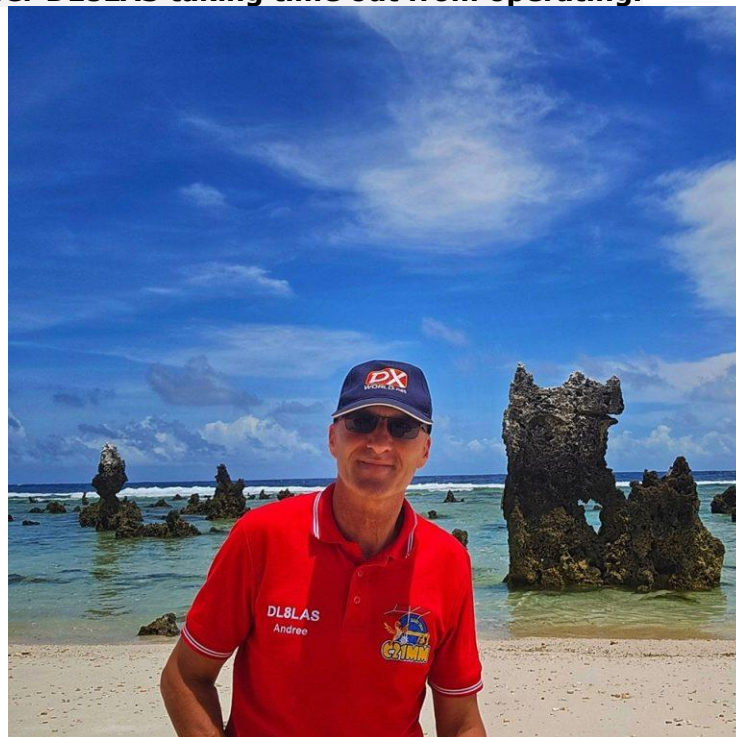

C21MM Nauru DXpedition –update October 17 0300z

Today, team C21MM finished the building of antennas at the second QTH

Ronny DG2RON running 20m SSB as C21MM

C21MM team member DL8LAS taking time out from operating.

3D2Y Rotuma DXpedition -update

One month from today, on November 15th, our 6 member multi-national on-island team will board an early morning, 1.5 hour flight aboard an ATR72 from Fiji to Rotuma. Our equipment will be pre-staged at our operating location, we will be ready to begin setting up our stations immediately upon our arrival, with a goal of having all stations on the air by the end of the day. We plan to have a total of 5 stations on the air, 2 of the stations will be Elecraft K3s + KPA500s, 1 is a NexGenRiB based on an Elecraft K4 + KPA500, the remaining 2 stations are NexGenRiBs with Elecraft K3s running 100 watts. Our operating location is on the beach on the north side of the island with ample frontage for our

antennas. Our antenna complement consists of verticals for 160-40, vertical dipoles for 20-10, and a 5 element yagi for 6 meters. We plan to use RX antennas on the low bands with active noise reduction to minimize the impact of local noise sources.

XT2MD Burkina Faso –update

The start of operations is approaching. In order to make everyone happy we would like to remember some useful contacts:

XT2MD's Official spokesman/social media content M0OXO

North America Pilot N1DG

South America Pilot HK3W

For log problems (busted calls, nil etc), the only person who has the complete log and is able to check and correct is IK2VUC – PLEASE THINK TWICE BEFORE WRITING TO GIULIANO: May be you are not in log because you didn't got the QSO (and you have to try again) or, if you aren't in log with a bunch of other operators who made the QSO after you, may be we are disconnected and you should wait till midnight (log back-up) to see your call.

For any sked or information about E.M.E. write to DL8JJ

For any sked or information about QO-100 write to GI4DOH

Sked or other info/requests on low bands write to IZ8FFA

Feel free to contact those guys if you have questions, informations or requests: they will collect your messages and forward to us almost on real time, it will be much quicker and easier than directly contact the expedition crew.

Just to be clear: XT2MD won't be on-air before Thursday 31 late afternoon-evening (Time zone: 0).

VU4X Andaman Islands –update

Some radio amateurs are very disappointed in our DXpedition because, in their eyes, we do not pay attention to 50 MHz | 6 Mtr. Other radio amateurs wonder why we do not do 50 MHz | 6 Mtr. Every week we get a lot of questions about this from different countries. It's not that we don't want to, we would even be very glad to be active on 50 MHz | 6 Mtr during the VU4X DX-pedition. But unfortunately, regulations decide otherwise. On Andaman Island, 50 MHz | 6 Mtr is only allowed with a maximum power of 25 watts | FM. We have been requesting permission for an exception for a very long time. Hoping to get temporary permission to use more power and different modes. There have been several contacts with the Ministry of Communications. Currently, we have not yet received a final decision or positive response. But we keep asking the question and together with you hope for a positive answer.

DXCC

This week on air

This can change daily, please visit <https://www.dx-world.net/> for updates.

3B9, RODRIGUES ISL Kazu, M0CFW will once again be QRV as 3B9KW and as 3B9/call outside the contests. QRV during the CQWW SSB contest (Oct 26-27) and CQWW CW contest (Nov 23-

24). Before and after the contest as 3B9/call -> October 20-30 and again November 17-27. QSL via LoTW.

5H, TANZANIA Tev, TA1HZ updates DX-World readers to say that he will be moving once more down to Tabora, Tanzania as of 19th October 2024, and QRV as 5H8HZ. Last time he was active from there he received Mixed-Digital-20m-17m-15m DXCC Awards. This time Tev will try his chances on 10m-12m-30m-40m DXCC Awards. Outside of his work (on a construction site) he will try to be a ATNO or slot filler DX station with same day LoTW/eQSL/QRZ/Club Log confirmations.

5V, TOGO Antonio, IK7WUL (ex TY2AA) is now active as 5V0DX, QRV on HF using SSB during his spare time. QSL via home call.

6Y, JAMAICA Neil, G0RNU will once again be operating as 6Y/call between October 23 and November 6. Activity on HF using SSB and FT8. QSL via home call.

7P, LESOTHO Bernie ZS4TX and John ZS6JON will be active as 7P8Z on a 70cm EME DXpedition. *"We will do two moon passes", Dennis says, "starting Friday 18 October 2024 at 18:00 UTC moonrise and ending Sunday 20 October 2024 at 05:00 UTC moonset. Also included is some Satellite passes - we will work the ISS (if available), RS-44 and SO-50".* QSL via PA3CMC and LoTW.

7Q, MALAWI A team with EA7FTR, CT1BOL, D2ACE, 7Q6M and 7Q7CT will be operating as 7Q1 during October 23 and November 2. Operation on all bands and all modes. An entry in the CQWW SSB contest is included. QSL via EA7FTR.

7Q, MALAWI Operating from the QTH of Don, 7Q6M, look for Gerry, W1VE as 7Q2T until October 28. An entry in the CQWW SSB contest (SOAB, LP category) is included. Outside of contest QRV on HF bands, mainly CW. QSL via LoTW.

Regretfully, Frank (DL4KQ), who planned and worked on this project with us, will be unable to join the team due to family and work-related issues. More information can be found on the expedition [website](#).

THE REMINDERS

ASIA

AS-140 Dal Char Isl 'We are planning to activate another IOTA in this December 13-19. Our main goal this year is to focus on hands on training and capacity building for the local HAMs to understand different types of HF antenna, Propagation and Pileup handling. We hope in coming days we will see more HF station doing DXing from S2.

After checking all the islands in the two groups, considering Logistics, Transport and Cost we have decided to do the IOTA from the same island as before (Dhal Char, AS-140). The other nearby island is not suitable due to antenna orientation problem and also drinking water is not available in all of them, some are not inhabited.'
